SAFE FLOOR – SAFE TREAD.

Vacu-Frog Floor Suction Device

The Vacu-Frog Suction Device provides a simple solution for removing fluids from floors with flat surfaces.

Connect the preattached tubing to a suction container, activate suction, and place the Vacu-Frog suction device on the room floor for removing all fluids through suction cleaning. Separate storage and cleaning is not needed. The Vacu-Frog can be moved easily during the application.

After the application, there is no further storage or cleaning necessary, as the Vacu-Frog is a disposable product.

ATTENTION: This product is not a medical device, concerning to the EU-Medical Device Regulation (MDR).
